

AGENDA

Chesar Use maps creation meeting 3 May 2017

Venue: Offices of the International Association for Soaps, Detergents and Maintenance Products (A.I.S.E)
Boulevard du Souverain 165, 1160 Auderghem (Brussels)

Objective:

The objective of the meeting is for sector associations to exchange experience on developing Chesar files for their use maps elements, to have remaining issues addressed and to discuss potential adaptation needs to tools/guidance. Participants will also have the opportunity to learn about the new functionalities of Chesar 3.2¹ in relation to use maps.

Expected input from the participants:

Participants are invited to contribute to the agenda item 2. It would be very convenient if you could share your feedback on creating your uses maps in Chesar format with us in advance of the meeting (if possible by 24 April) e.g. via few slides or short written description.

Describe your general experience² with a particular focus on the areas in which further clarifications are still required or would help in getting things consistently done across sectors (e.g. how/where to report certain information type, use of standard phrases, how to interpret certain warning messages in Chesar, ...). Provide concrete examples where needed. Please also indicate if you see the need for further direct support from ECHA (e.g. via a 'hands on' session during the workshop) for finalising your use maps in Chesar format.

¹ Chesar 3.2 expected to be released end of May

² what worked well/what was more difficult

Agenda:

AGENDA ITEM	TIME	TOPIC	SPEAKERS
1	9:30 – 10:00	Introduction	ECHA
2	10:00-12:00	State of play and feedback on experience from the different sectors.	Sectors
