Subject: ECHA/2009/39: Multiple Framework Contract with reopening of competition and division into lots for external service provision for development, studies, support of information systems and security, awarded through an open procurement procedure

CLARIFICATIONS 22

22.1 In the context of this framework contract, we are planning to answer as a group, designating one of the companies as the leader and giving mandate to it. For Corporate Compliance and internal audit reasons, the group leader is not allowed to use its own bank account. In case the contract is awarded to the group, a new bank account for the group will be opened. Therefore, we kindly ask you to clarify the following:

- 1 - Is it possible not to provide bank account details at this stage of the tender?
- 2 - In the case a bank account is mandatory, is it possible to update the bank account details at a later stage before contract signature (in case of contract award to our group)?

Tenderers are required to provide bank account details at this stage of the tender. In case tenderers wish to change the bank account details, this can be done following an exchange of letters after the contract signature.
